

# DRIVING MOMENTUM TO YOUR GUIDEWIRE INITIATIVES

# ValueMomentum's services for Guidewire

## Full-Services IT Partner To Power Your Guidewire Initiatives.

As a property/casualty specialized IT services & solutions partner, we help carriers leverage their investments in Guidewire for targeted business outcomes. Our CoreLeverage business helps carriers discover & use rich Guidewire functionality to drive:

- ▶ **Speed:** Enabling customer objectives through faster and predictable rollouts
- ▶ **Efficiency:** Maximizing the value of the core platform and enabling early realization of benefits
- ▶ **Reliability:** Ensuring a stable application without outages and performance issues
- ▶ **Costs:** Rationalizing program cost through optimization and automation

ValueMomentum deploys a comprehensive and proven methodology to cover all aspects of Guidewire implementations such as product definition, configuration, rating, forms, integrations, user interface, workflows and transactions.

ValueMomentum is actively engaged with clients to transform how they create, launch and manage new insurance products and services with the Guidewire Cloud Platform.

As a trusted partner for P&C carriers' transformation initiatives, ValueMomentum offers a full-services portfolio that addresses P&C carriers' initiatives for enabling rich digital experiences, embracing ecosystems, driving automation & IT agility and democratizing access to data & analytics.

Technical Upgrade

# VALUEMOMENTUM LEVERAGES YOUR CORE TO BUILD THE DIFFERENTIATOR THAT WILL DRIVE YOUR GROWTH

With new business models, strong competition, and a myriad of consumer choices, Core is the key driving force and is proving to be the true differentiator for product innovation, risk evaluation and price optimization enabling profitable growth.

The future of Core will take into account technology advancements, ability to meet the needs of the digital customer, flexibility to address the evolving risk landscape, and the capabilities to support changing business models.

## FUTURE OF CORE

### GUIDEWIRE-SPECIFIC SERVICES

ValueMomentum's end-to-end offerings help carriers transform, digitize, and grow their business using Guidewire's suite of applications. Our service offerings focused on the Guidewire platform include:

- ▶ **Advisory** Helping you develop and refine your product model and rating strategy, integration and underwriting approach, business and technology solution, and your overall program roadmap
- ▶ **Implementation** Offering comprehensive services and a proven methodology to support your core implementations for entering new market segments, launching new products, or expanding into new geographies
- ▶ **Core AMS** Providing a holistic approach towards maintenance across technology, application, and business streams, to help you achieve better productivity and improved quality with minimized run costs
- ▶ **Upgrade** Taking the busy work out of your upgrade to a new version, move to a self-managed cloud, or migration to SaaS

# VALUEMOMENTUM'S APPROACH TO GUIDEWIRE IMPLEMENTATIONS

ValueMomentum provides end-to-end services to support Guidewire implementations. Our comprehensive portfolio guides insurers starting from the pre-inception stage —where we discuss product strategy, distribution strategy, rating strategy, and competitor analysis—all the way through inception, development, stabilization, and deployment.

## THE VALUEMOMENTUM DIFFERENCE

ValueMomentum offers comprehensive services to transform, run and upgrade your Guidewire core systems with speed, efficiency, reliability, and value for money. Scale up the impact of your core investments by harnessing ValueMomentum's P&C expertise to drive your Guidewire strategy.
